Subject: SETAC doc and table

Dave,
Updated version, as of today
I am following up with Cinthia on the Lab Chapter tables,
And will send notes to the persons with photos to get releases (Beevers, Wisk, Vaughan)

Elements that are highlighted in the table are, to me, those elements that remain to be resolved.
A main thing left will be to square off with Bill Warren-Hicks to be certain that something will be produced, and to be sure that the text in the manuscript is ok on this.
